Married

ABOUT ME

Driven by an unwavering enthusiasm for cutting-edge technologies, I have naturally progressed in the field of web development since June 2019. My innate curiosity not only fuels my creativity but also sharpens my meticulous attention to detail. These attributes are essential in my pursuit of excellence as a web developer, where my ambition lies not only in innovation but also in consistently delivering exceptional results in this ever-evolving industry.

PROFESSIONAL HISTORY

FRONT-END DEVELOPER | NOV 2020 - PRESENT

INARIX, PARIS

Pioneered the development of the Inarix portal, playing a central role in creating an innovative platform for this leading French agritech company. I designed and developed the portal from A to Z, ensuring a smooth user experience and high-level technical execution, using modern technologies such as React, TypeScript, Redux, MUI and Mapbox.

- Throughout the process, I rigorously followed the mockups designed in Figma, ensuring visual consistency and user interface ergonomics.

- I implemented advanced features such as sample visualization, user management and interactive silo mapping, while ensuring the application's reliability and performance through a comprehensive test suite with Jest and Cypress.

https://inarix.com/

FREELANCE WEB DEVELOPER | JUN 2019 - NOV 2020

MEXICO - FRANCE
- Complete creation of web pages for individuals, including component development, web design, and E-commerce application creation, utilizing the MERN Stack (MongoDB, Express.js, React, and Node.js) for full-stack JavaScript development. Tasks include front-end UI design with React, RESTful API development with Express and Node.js, and data management using MongoDB.

ASSOCIATE DIRECTOR | JAN 2013 - DEC 2019

ROL-MAN MEXICO, MEXICO CITY
- Complete administration of a fish and seafood sales company, including raw material management, sales, staff training, payment management, and supervision of 6 employees.
- Contact with suppliers and internal relations.
- Order management for different clients.

PRODUCTION MANAGER | JAN 2018 - DEC 2018

CIBAC MEXICO, MEXICO CITY
- Responsible for the production of live food for feeding 'Ambystoma mexicanum' at the juvenile stage.
- Studies on the reproduction of 'Ambystoma mexicanum'.

PROJECT MANAGER | JAN 2017 - DEC 2018

SAGARPA - VERACRUZ, VERACRUZ
- Consultation and review of documents for semi-intensive aquaculture projects in the state of Veracruz.
